KNOW YOUR GOLF RULES

Today's Topic: It is winter and the ground is getting soft so it is time to look at the Embedded Ball - read R&A Rule 16.3 for more detailed information.

- When a ball is embedded in the general area, free relief may be taken.
- The reference point for taking relief is the spot in the general area right behind where the ball is embedded.
- The relief area is one club-length from the reference point, is not nearer to the hole than the reference point and must be in the general area.
- A ball must be dropped in and come to rest in the relief area.
